

Manage & Cancel Instantly

Users can track recurring charges in real-time and terminate unwanted subscriptions—like Netflix—directly from within the app with a single tap.

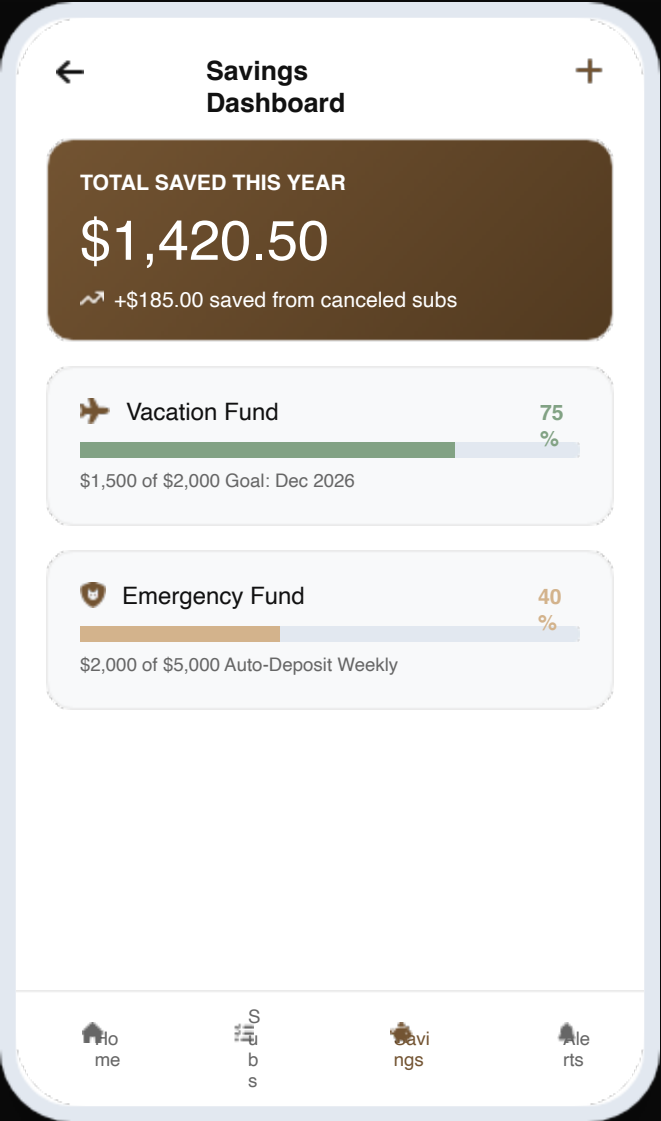

1-Tap Termination

Automated requests handle merchant cancellations securely.

Savings Tracker

Visualizes total money saved each month from canceled services.

Automated Savings Goals

Redirect funds recovered from canceled subscriptions straight into your personal savings goals, building wealth automatically without impacting your daily budget.

↺↻

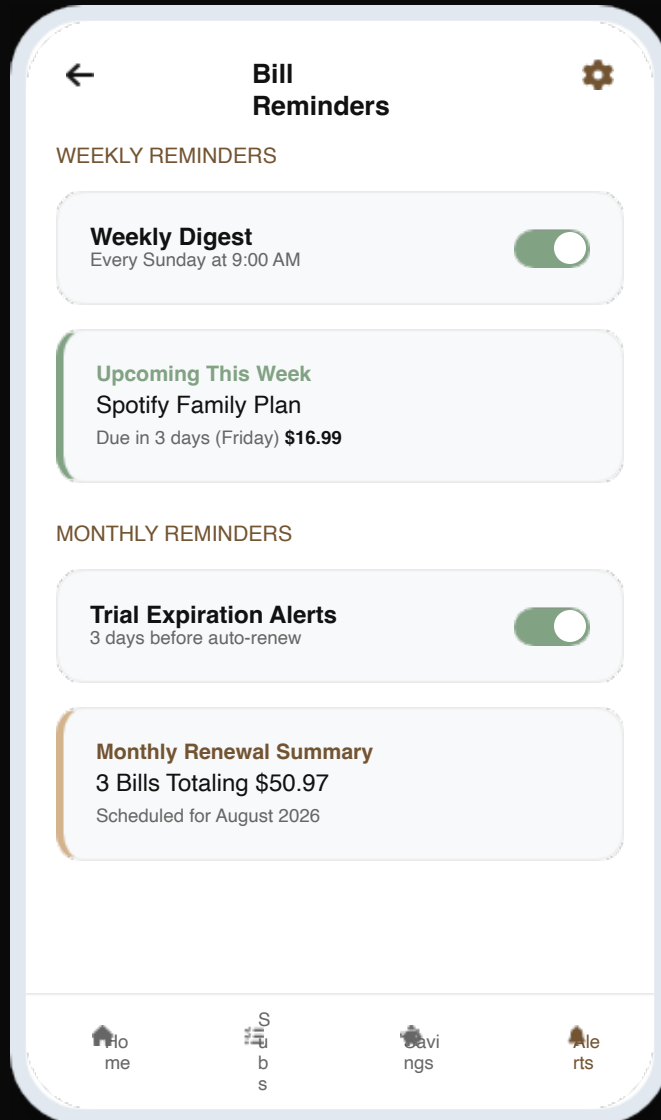

Auto-Reroute

Automatically transfers monthly subscription savings into high-yield vaults.

🎯

Goal Progress

Visual progress trackers keep you motivated towards financial freedom.

Proactive Billing Alerts

Never get surprised by an auto-renewal again. Customize weekly spending digests and monthly bill calendars so you can cancel unused trials before you get charged.

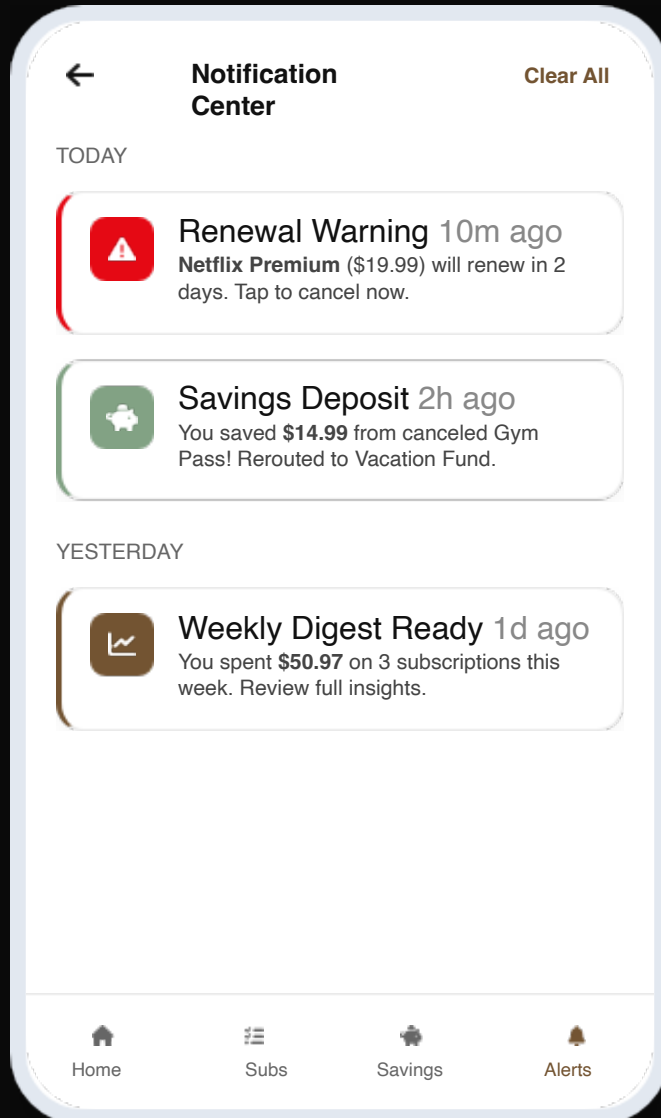

Weekly Cadence

Get notified about upcoming payments occurring in the next 7 days.

Trial Shield

Push notifications alert you before free trials convert to paid plans.

Real-Time Notification Feed

Keep users informed with actionable push notifications for upcoming bill renewals, trial cancellations, and automatic savings milestone updates.

Actionable Alerts

Cancel charges directly from the push notification feed.

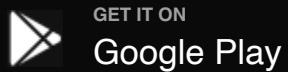

Zero Surprise Fees

Provides advance warnings before any charge impacts your bank.

Take Control of Your Subscriptions Today

Download TARGET IT on iOS or Android to sync your accounts, track recurring bills, and cancel subscriptions seamlessly.

 Bank-Level 256-Bit SSL Encryption • Free 14-Day Trial
